5. News from National Groups

Finland - The Finnish Group together with RIL is organising the 'IABSE Summit 2016 Helsinki - Barcelona Global Risks in Structural Engineering' from March 10-11, 2016. The summit theme refers to the recent and future risks in civil and structural engineering sectors. The purpose of the summit is to provide a meeting point and discussion forum to any professional interest to the theme in a wide sense. These include engineers, architects, developers, researchers, teachers and association representatives. The Summit is targeted to everybody from young professionals to eminent: each opinion and viewpoint is valuable to address the theme. [More information and Preliminary Programme here..](#)

Spain - The Spanish Group of IABSE organised together with the Escuela de Ingenieros de Caminos, Canales y Puertos - Technical University of Madrid, the full-day event '[Workshop on Bridge Design 2015, WoBD2015](#)'. The aim of this event was to promote design, inspiring future generations and bringing together young designers with leading designers. It featured talks by renowned master and junior speakers and an innovative workshop on bridge design guided by experts. A problem statement (footbridge) was provided in advance of the workshop for the proper development of the participants' ideas prior to the event. The workshop was aimed at Young Civil Engineers and Architects

and students. A diploma was awarded for the best designs. All presentations can be viewed as videos [here..](#)
